

Foodmax Pump Fluid P

Advanced hose pump lubricant

Description

Foodmax Pump Fluid P is a food grade fluid specially formulated for lubricating hose pumps and maximize their lifetime. Foodmax Pump Fluid P meets the most strict specifications of the food industry and fits perfectly in Hazard Analysis Critical Control Point (HACCP). Product also meet requirements specified in FDA 21 CFR 178.3570 "Lubricants in incidental contact with food".

Applications

Foodmax Pump Fluid P is an ideal lubricant for cooling and lubricate

peristaltic hose pumps to prevent abrasion and to assist in the dissipation of heat.

Benefits

- Long fluid life
- Low volatility
- Excellent film strength
- Reduced maintenance costs
- Reduced downtime

Typical performance data

Parameter	Fluid P
Colour	Green
Viscosity @ 40 °C, cSt	82
Density @ 20 °C, g/ml	1.23
Flash point, °C	170
Pour point, °C	-33
