

## Foodmax SPO 460

### Steam Peeler Oil

#### **Description**

Foodmax SPO 460 is an advanced food grade lubricant specially formulated for use in cookers, steam peelers, gear boxes and numerous food processing equipment application. It is a washable product and helps to emulsify water. Blended from medicinal oils with selected additives that provides excellent anti-wear properties, high resistant to oxidation and good corrosion protection.

#### **Application**

Foodmax SPO 460 can be used in high temperature applications as in cookers, steam peelers, gear boxes and numerous food processing equipment application.

#### **Typical performance data**

Aspect	Colourless
Density @ 20°C, g/cm <sup>3</sup>	0.87
Viscosity @ 40°C, cSt	460
Viscosity Index	120
Flash Point, °C	>250
Pour Point, °C	-12
ASTM D665B sea water	Pass
NSF Approved	159072

Foodmax SPO 460 can be applied manually or through centralized lubrication systems, spraying, brushing or dripping.

#### **Specifications**

Foodmax SPO 460 meet the most strict specifications of the food industry and fit perfectly in Hazard Analysis Critical Control Point (HACCP). Products also meet requirements specified in FDA 21 CFR 178.3570 "Lubricants in incidental contact with food".

All performance data on this Technical Data Sheet are indicative only and can vary during production
