

Formmax DH 10-20-130

Concrete release agent

Description

Formmax is a product formulated to give an easy and complete release of concrete forms. The product has been designed with last generation additives to provide good release due to a thin film formed between the mould and the concrete part, does not have negative impact on operators and provides longer life to moulds.

Applications

Formmax is used pure as supplied. It can be applied with brush, roller, rag or spray gun.

Benefits

- Operator friendly
- Minimum formation of bug holes
- Longer mould life
- Good finishing and fast release
- High efficiency

Typical performance data

	DH 10	DH 20	DH 130
Appearance	Oily liquid	Oily liquid	Oily liquid
Colour	Clear yellow	Amber	Amber
Density @ 20 °C, gr/cm ³	0,85	0,87	0,897
Flash point, °C	150	170	230
Viscosity @ 40 °C, cSt	9-12	19-24	128-135
Mould corrosion	No corrosion	No corrosion	No corrosion
Pour point, °C	-9	-10	-9
