

## Glassmax A5

### Glass production lubricant

#### Description

Glassmax A 5 is a special lubricating oil for drop glass sliding deflectors or funnels used in bottle manufacturing.

#### Application

Glassmax A5 needs to be sprayed on funnels or deflectors for drop glass sliding.

Glassmax A5 improves the sliding and therefore transit time of the glass drop.

#### Storage

To be kept under cover. If packages are kept at the open air, rainwater or moisture will contaminate the product. Lubricating oils and greases should not be exposed to sunlight or at low temperatures (frost).
