

Matrix Anti Rust 4 A

Oil based rust preventative

Description

Matrix Anti Rust 4 A is a high quality oil-based barium-free rust preventative which forms a oily film that gives long term protection to ferrous and non-ferrous metals. The product's thixotropic properties that provides optimum film stability on all kind of surfaces.

Applications

Anti Rust 4 A is designed for applications where during protection is required for storage for periods of three to six months. Typical applications include:

- Protection of finished machine components prior to packaging
- Steel sheets, profiles and rolled strips
- Industrial engines
- Car and track engines
- Inter-operational protection of finished machined or ground metal surfaces such as valves, rollers and fasteners
- Protection of parts during storage where a thin oily film is required

Typical performance data

	4 A	4 AA
Appearance	Light brown	
Specific gravity @ 20 °C, gr/cm ³	0,88	0,88
Viscosity @ 40 °C, cSt	25-29	50-60
Flash point, °C	180	180
Salt spray test, hours	24	24

Use

Can be applied by brushing, dipping or spraying. Like all thixotropic products, longer periods of storage can cause some precipitation. It is recommended agitate prior to use and empty drums totally. Removal by solvents or alkaline cleaners.
