

## Matrix Anti Rust 5 G

### Oily-grease rust preventative

#### Description

Anti Rust 5 G is a general high quality rust preventative which forms a light film that provides long term protection to ferrous and non-ferrous metals.

#### Applications

Anti Rust 5 G is designed for applications where protection is required during indoor storage for periods of six to twelve months.

Typical applications are:

- Protection of finished machine components prior to packaging
- Protection of finished machined or ground metal surfaces such as bearings, tools, valves, rollers and fasteners
- Protection of parts during storage where thin film thickness is required

#### Typical performance data

Appearance	Light brown
Specific gravity @ 20 °C, gr/cm <sup>3</sup>	0,89
Drying time, minutes	30
Type of film	Light greasy
Flash point, °C	50
Indoor protection, months	>12

#### Use

The product can be applied by brushing, dipping or spraying at room temperature. Cleaning by alkaline cleaners.
