

Anti Rust 7A

Oil based rust preventative

Description

Matrix Anti Rust 7A is an excellent oil-based rust preventative which forms a thin oily film that gives long term protection to ferrous and non-ferrous metals.

Applications

The product was introduced for applications where protection is required during indoor storage for periods of six to twelve months and outdoor 6 months.

Typical applications are:

- Protection of finished machine components prior to packaging
- Inter-operational protection of finished machined or ground metal surfaces such as valves, rollers and fasteners
- Protection of parts during storage where minimum film thickness is required

Typical performance data

Appearance	Light brown
Density @ 20 °C, gr/cm ³	0,86
Viscosity @ 40 °C, cSt	7,2
Film type	Oily
Flash point, °C	65
Indoor storage, months	6-9

Use

Matrix Anti Rust 7A can be applied by brushing, dipping or spraying at a temperature of 5 °C to 30 °C. Removal by solvents or alkaline cleaner.
