

Sol AFT

Antifoam for industrial aqueous coolants

Description

Sol AFT is a concentrated antifoam agent with optimum dispersibility properties.

Matrix Sol AFT can be added in the tank and will break and avoids foam formation in aqueous systems.

Storage

Protect from freezing. Life time in indoors environment can be up to 6-12 months

Typical performance data

Appearance	Yellowish
Odour	Odourless
Density, kg/L	1,01
Character	neutral
Active Content, %	100

Mixing

Add on water soluble emulsions in a dosage of 0,005 to 0,1%. Always mix prior to use.
