18800 - Adult Vintage Cadet Collar Sweatshirt

Sweatshirts, the queen of streetwear, stand the test of time. Season after season, this classic garment continues to be on trend. Men's sporty looks wouldn't be the same without sweatshirts. Have a natural look that is great for everyday wear.

270 g/m² (8 oz/yd²)
 50% cotton / 50% polyester
 Preshrunk fleece knit
 Air jet yarn = softer feel and reduced pilling
 Cross dyed shades (2 colors in one fabric)
 Self fabric lined collar
 Contrast dark grey twill tape
 1/4 brass zipper with contrast dark grey trim
 Double-needle stitching at shoulder, armhole, waistband and cuffs
 1 x 1 rib with spandex
 Quarter-turned to eliminate center crease
 Sizes : S - XL Tear away label

Decorating Techniques

DIRECT TO GARMENT

Utilizes specialized ink jet technology to print water-based CMYK+ white-ink directly on garments. Ideal for projects with short turnaround times. Works on both light and dark garments.

MIXED TECHNIQUES

Employs more than one technique to achieve the desired result. For example, combine screen printing and embroidery with a shiny appliqué for a garment with a higher perceived value.

DISCHARGE PRINTING

This form of screen printing prevents color mixing. It uses a waterbased catalyzed ink with an added activator which first removes color in the garment before adding the new color.

HOT SPLIT TRANSFER PRINTING

Combines heat and pressure to transfer images to garments. Most of the ink melts into the fabric to create a softer, lighter feeling print. Great for customization and shorter runs.

HEAT TRANSFER

Heat transfer involves combining heat and pressure to transfer images to garments. This is a great option for detailed prints, customization, shorter runs and quick turnaround times.

REFLECTIVE PRINTING

Small glass beads in the carrier base of reflective inks cause any bright light to reflect off the print. This technique works best on larger print areas with simple designs.

APPLIQUÉ AND EMBROIDERY

Sewing a laser cut appliqué onto a garment and then embellishing it with embroidery adds dimension and detail to your garment. Ideal for heavier weight garments such as fleece.

EMBROIDERY

Embroidery is sewing a design, type or logo onto a garment with special thread. It gives garments a higher perceived value and works very well on fleece and heavier weight garments.

FOIL PRINTING

It combines heat and pressure to transfer foil to a garment. Foils come in many colors and patterns, and create dramatic accents or overall designs on all fabric colors and weights.

SCREEN PRINT

A technique that uses stencils and ink to create designs on garments. It is the most economical method for producing large quantities that involve cotton or cotton-blend garments.

SUBLIMATION

This process utilizes heat-sensitive inks to create long-lasting, full-color, photo-quality reproductions of digital images. Sublimation is well suited for 100% polyester garments.

PUFF PRINT LETTERING

A method for creating a 3D design by screen printing with an ink containing a unique foaming agent or puff additive that expands when heated. Ideal for simple designs.

GLITTER PRINTING

A special clear glitter topcoat is screen printed on top of the colored design to add shine and impact to your design. This technique can work on all colors and weights of fabrics.

DISTRESSED AND CLEAR INK

Distressed printing gives screen prints an intentionally weathered look. Clear inks can be used to add a glossy shine or dimension to a design.

NEON COLORS

Using this two-step screen printing process helps you achieve the brightest possible color on a garment. It works by printing transparent neon inks on top of a white opaque base.
