★ Special Price

# 99.9% Effective Against Human Coronaviruses, HFMD & H1N1

BAOMA Viruspruf is an eco-friendly odorless water-based interior hygienic coating that provides a durable smooth finish with superior washability to withstand regular cleaning with moderate detergents. It has excellent stain repellency hence household stains can be easily removed. Its innovative Silver Ion technology is scientifically proven that it effectively inhibits the growth of viruses such as Human Coronavirus, Coxsackievirus A16, H1N1 virus. Besides, it is effective against common bacteria such as E-Coli, MRSA, Staphylococcus Aureus, fungi and mould, thus promotes hygienic indoor living environment, making it suitable for use in area such as childcare center, kindergarten, school, clinic, hospital, hotel, dining area, food preparation area & etc.

**Ag+**

**Silver Ion Technology**

that effectively inhibits the growth of viruses and bacteria up to 99.9%, thus promotes hygienic indoor living environment.

**Washability & Stain Resistance**

Promises a lasting durable coating perfect for regular cleaning maintenance.

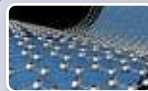

**Odorless**

No unpleasant smell during and after paint application, making your home ready for occupancy almost immediately

Tintable Via **COLOR INFINITY**

Breathable waterproofing membrane that resists water penetration from outside while allows trapped moisture from inside to escape through

High strength hard wearing, reinforced with micro fiber for superb tensile strength of >3mPa

Waterproofing with no laps or joints, almost zero water vapor permeability

Highly elastomeric, elongation at break > 450%. For exterior & interior use

Tintable Via **COLOR INFINITY**

BAOMA Flexipruf 200 is a high performance water-based liquid rubber membrane reinforced with micro fiber for superb tensile strength. It is specially designed to eliminate blistering and wrinkling which may occur in exposed or under immersion conditions. It provides a fully bonded homogeneous membrane and waterproofing barrier with no laps or joints, almost zero water vapor permeability. It is not affected by Ultra-Violet or temperature extremes and does not become brittle with age, making it ideally used as exposed waterproofing coating for RC gutters and planter boxes, floor slabs, balcony, external wall, flat roof and concrete structures. It also can be applied as a sealing solution to seal cracks on joint walls, ceiling and roofing.

## WHERE TO APPLY

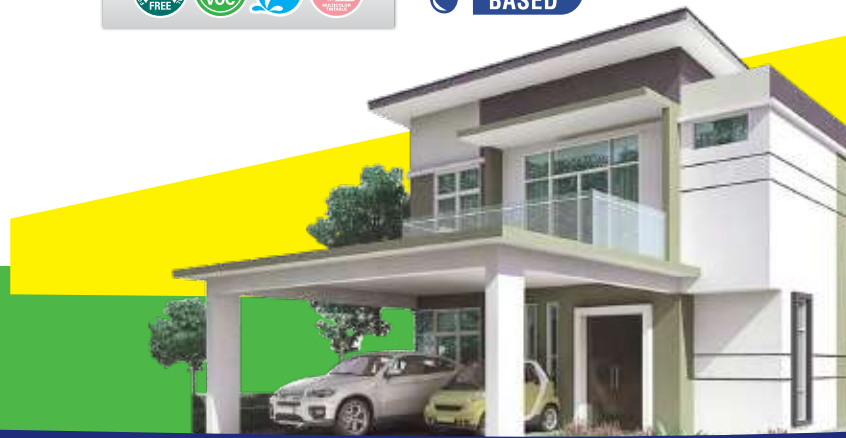

# BAOMA CHAMELEON PRIMER 2000

MULTIFUNCTIONAL PRIMER

- Superior flexibility that enables the paint-film to elongate up to 2x as to cover hairline cracks & provides waterproofing protection.
- Multicolor tintable whereby colorants can be added to enhance good hiding for subsequent topcoat, thus reduces unnecessary topcoat usage & cost saving.
- Prevent the effects of efflorescence & discoloration on wall surface.
- Excellent adhesion ensures perfect binding between substrate surface & topcoat.
- For exterior & interior use.

## PRIMER & SEALER

### BAOMA FRESHCON PRIMER 1500

POWER PROTECTION PRIMER

- 3 Days Primer best for freshly plastered concrete after 3 days curing.
- Excellent penetrating power provides good adhesive strength to the surface.
- Prevent the effects of efflorescence & discoloration on wall surface.
- Excellent adhesion even can be used on slightly powdery surface.
- For exterior & interior use

### BAOMA EXCILA 1900

SUPERIOR PIERCING POWER

- Superb penetrating power provides excellent adhesive strength to the surface.
- Prevent the effects of efflorescence & discoloration on wall surface.
- Superb adhesion even can be used on powdery surface.
- For exterior & interior use.

### BAOMA EXCILA 1000

EASY & EFFECTIVE SEALER

- Prevent the effect of alkali that causes discoloration on wall surface.
- Excellent adhesion even can be used on slightly powdery surface.
- Good hiding & easy-to-apply that provides effortless application with smooth finish.
- For exterior & interior use.

### BLUE-i SEALER 550

GOOD QUALITY @ AFFORDABLE COST

- Prevent the effect of alkali that causes discoloration on wall surface.
- Excellent adhesion ensures perfect binding between substrate surface & topcoat.
- Good hiding & easy-to-apply that provides effortless application with smooth finish.
- For exterior & interior use.

### BRUSH & ROLLER ECOSEALER 5400

VALUE FOR MONEY

- Prevent the effect of alkali that causes discoloration on wall surface.
- Good adhesion ensures good binding between substrate surface & topcoat.
- Good hiding & easy-to-apply that provides effortless application with smooth finish.
- For exterior & interior use.

### BLUE-i BC SEALER 300

BUDGET IS THE MAIN CONCERN

- Provides adequate protection against mild alkali that causes discoloration on wall surface.
- Good adhesion ensures good binding between substrate surface & topcoat.
- Good hiding & easy-to-apply that provides effortless application with smooth finish.
- For interior use.
