About HEATTEMPS

Heattemps Engineering Sdn Bhd has established itself for more than two decades in the field of industrial electric heating and temperature sensing in Malaysia. We cater mainly to customised designs and supply a comprehensive range of industrial heaters, thermocouples, industrial oven and furnace and other related heating and accessories.

Heattemps has evolved over the years from a humble background of a few handfuls of workers to a reputable and respected company in supplying and serving the market needs. The success of Heattemps is greatly attributed to its ability to produce innovative designs, reliable quality products, prompt delivery and its ability to stay competitive in the market.

With our vast experience gained, we are able to provide consultation service and offer professional advice on various types of industrial heating systems.

After sales and technical back-up services are readily available from us as it is always our challenge to solve our customers heating problems to their satisfaction.

Repair & Service

With our years of vast experience, we are able to quickly identify and fix any heating system problem.

Our repair and service jobs include:

Industrial ovens

Industrial Furnace

Solder Pot

Towel Steamer
