# **M** MULTISPAN

# TEMPERATURE CONTROLLER UTC-4201A

CE

**PV** = Process value

**SV** = Set Value

### **TECHNICAL SPECIFICATION**

### **INPUT SPECIFICATION:**

Input Types	Input	Range
	J	0 to 600°C,
	K	0 to 1200°C,
	PT-100	-99 to 400°C,
	PT.1	-99.9 to 400.0°C,
Resolution	J,K,PT-100 = 1°C	
	PT.1 = 0.1°C	
Indication	±1% of FSD ± 1°C	
Accuracy	(FSD:- full scale deflection)	

### **DISPLAY AND KEYS:**

Display	Upper: 4 digit, 7 segment, 0.56" Red	
	Lower: 4 digit, 7 segment, 0.33" Green	
Keys	SET, INC, DEC, ENT	

### DIMENSION:

Size	48 (H) x 48 (W) x 95 (D) mm
Panel Cutout	45 (H) x 45 (W) mm

### **CONTROL METHOD:**

SOM THE STATE OF T	
Heating	1) PID control with Auto-Tuning
	2) ON-OFF control
Cooling	1) BL.TP (Blower Time Proportion) 2) ON-OFF control
Alarm	Inband, Absolute Outband, High, Absolute Low

### **OUTPUT SPECIFICATION**

Relay Output	
Relay	1 nos.
Relay Type	1 C/O (NO-C-NC)
Rating	5A, 230V AC/30 V DC
Analog Output	4-20mA DC

### **AUXILIARY SUPPLY:**

Supply voltage	100 to 270V AC, 50-60Hz
Power consumption (VA RATING)	Approx 4 VA @ 230V AC MAX

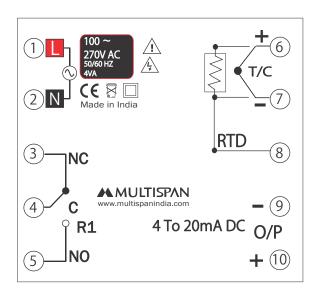

### **ENVIRONMENT CONDITION:**

Operating Temp.	0°C to 55°C
Relative Humidity	UP to 95% RH (non-condensing)
Protection Level	IP-65 (Front side) As per IS/IEC 60529 : 2001

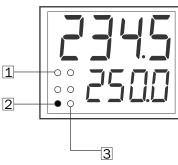

### **MECHANICAL INSTALLATION**

Outline Dimension (mm)	Panel Cutout Dimension (mm)
48 PO TO ST	45 

### **TERMINAL CONNECTION**

### STATUS LED DESCRIPTION

- 1 Analog output
- 2 Relay Output
- 3 Auto tuning

### **KEY OPERATION**

FUNCTION	PRESS KEY	
OPERATOR MODE		
To enter in parameter setting	SET	
For start/stop PID auto tuning	Press 6 sec	
To go in factory setting mode	Press 3 sec	
PARAMETER SETTING MODE		
To set parameter value	SET	
To increment parameter value.	lacktriangle	
To decrement parameter value.	$\bigcirc$	
Set parameter to be save & exit.	ENT	

### **INSTALLATION GUIDELINES**

- This equipment, being built-in-type, normally becomes a part of main control panel and in such case the terminals do not remain accessible to the end user after installation and internal wiring.
- Do not allow pieces of metal, wire clippings, or fine metallic fillings from installation to enter the product or else it may lead to a safety hazard that may in turn endanger life or cause electrical shock to the operator.
- 3. Circuit breaker or mains switch must be installed between power source and supply terminal to facilitate power 'ON' or 'OFF' function. However this mains switch or circuit breaker must be installed at convenient place normally accessible to the operator.
- 4. Use and store the instrument within the specified ambient temperature and humidity ranges as mentioned in this manual.

### **MECHANICAL INSTALLATION GUIDELINES**

- 1. Prepare the panel cutout with proper dimensions as shown above.
- 2. Fit the unit into the panel with the help of clamp given.
- 3. The equipment in its installed state must not come in close proximity to any heating source, caustic vapors, oils steam, or other unwanted process byproducts.
- 4. Use the specified size of crimp terminal (M3.5 screws) to wire the terminal block. Tightening the screws on the terminal block using the tightening torque of the range of 1.2 N.m.
- 5. Do not connect anything to unused terminals.

### **MAINTENANCE**

- 1. The equipment should be cleaned regularly to avoid blockage of ventilating parts.
- 2. Clean the equipment with a clean soft cloth. Do not use isopropyl alcohol or any other cleaning agent.
- 3. Fusible resistor must not be replaced by operator.

All safety related codifications, symbols and instructions that appear in this operating manual or on the equipment must be strictly followed to ensure the safety of the operating personnel as well as the instrument.

If all the equipment is not handled in a manner specified by the manufacturer, it might impair the protection provided by the equipment.

Read complete instructions prior to installation and operation of the unit.

WARNING: Risk of electric shock.

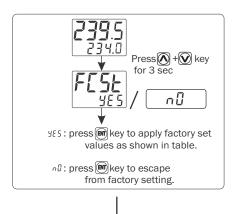

### WARNING GUIDELINES

### WARNING: Risk of electric shock.

- To prevent the risk of electric shock, power supply to the equipment must be kept OFF while doing the wiring arrangement. Do not touch the terminals while power is being supplied.
- 2. To reduce electro magnetic interference, use wire with adequate rating and twists of the same of equal size shall be made with shortest connection.
- 3. Cable used for connection to power source, must have a cross section of 1mm or greater. These wires should have insulations capacity made of at least 1.5kV.
- 4. When extending the thermocouple lead wires, always use thermocouple compensation wires for wiring for the RTD type, use a wiring material with a small lead resistance ( $5\Omega$  max per line) and no resistance differentials among three wires should be present.
- 5. A better anti-noise effect can be expected by using standard power supply cable for the instrument.

# **FACTORY SETTING**

FACTORY SETTING		
SR.	PARAMETER	VALUES
1	PB	20.0° C
2	IT	300
3	DT	75
4	СТ	15 sec
5	MR	0°C
6	OFFSET	0°C
7	HYSTERISIS-1	3°C
8	C-PB	4.0°C
9	C-ON	1 Sec
10	C-OFF	48 Sec

# PARAMETER MESSAGE DESCRIPTION

C.SEL	Controlling O/P Set Point
5EŁ	Set Point For O/P 1

14	ALTM	0 to 99 sec	0 to 99 sec	

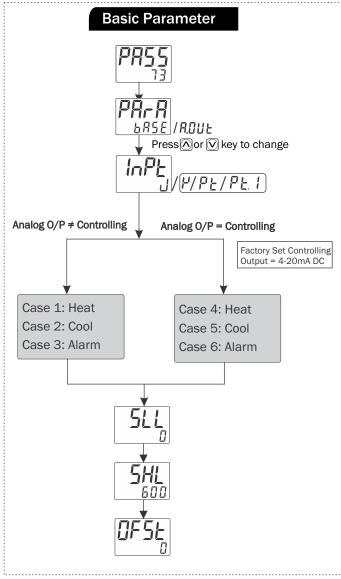

# **ERROR DISPLAY**

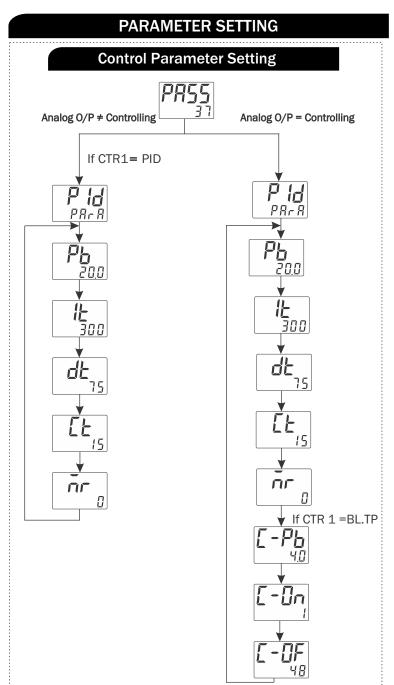

When an error has occurred the display indicates error codes as given below.

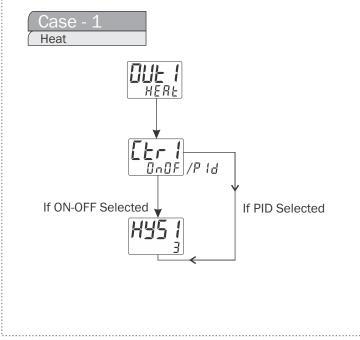

ERROR	MEANING
OPEn	Sensor is not connected Over range condition or sensor break
5-E	Sensor connection is reversed

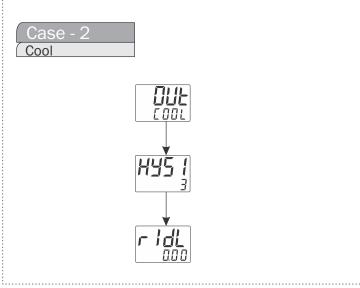

# Set Point Setting Process Value Analog O/P = Controlling Analog O/P = Controlling

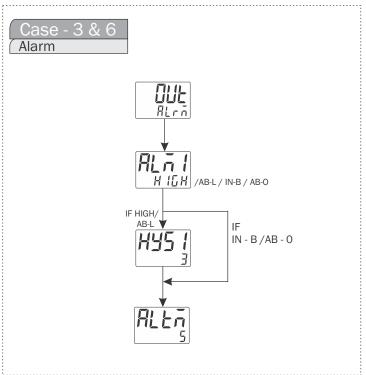

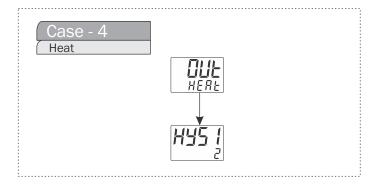

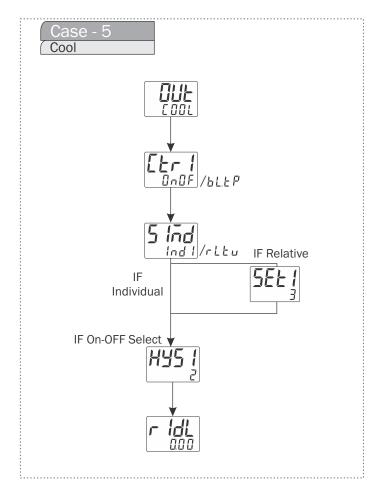

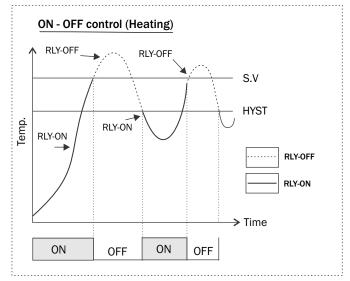

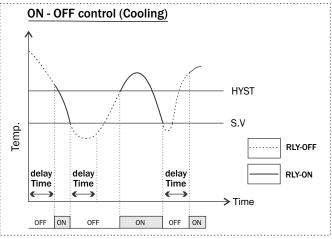

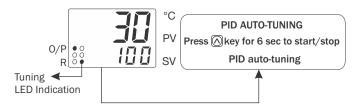

### **CONTROL FUNCTION**

### **Auto Tuning:-**

- → The Auto-tuning function automatically computes and sets the Proportional band (Pb), Integral time (It), Derivative time (dt), and cycle time as per process characteristics.
- → Tuning LED will turn "ON" during Auto-Tuning
- → If the power goes off before auto-tuning is completed, auto-tuning will be restarted at next power ON.

Specifications are subject to change, since development is a continuous process, So for more updated operating information and Support, Please contact our Helpline: 9978991482/9978991476/9978991474 or Email at <a href="mailto:service@multispanindia.com">service@multispanindia.com</a> Ver:191201
