

# Power Up Lithium Complex Grease

## Product Description:

Power Up Lithium Complex High Temperature Grease is a high performance, versatile, long life EP grease. It is based on high viscosity index mineral oil and a Lithium Complex thickener and contains latest additive technology to offer high temperature oxidation performance, anti-wear and anticorrosion properties. It provides reliable and consistent performance in applications of high loaded equipment bearings running in medium to high speed high temperatures wet or dusty environment

## Applications / Benefits:

1. Longer wheel bearing life due to low wear
2. Protects against corrosion
3. Operates over a wide temperature range
4. Lithium based, making it compatible with the majority of grease used

## Typical Characteristics:

Thickener: Lithium Complex  
NLGI: 3  
Dropping Point: 2500 C min  
Operating Temperature Range: -200C to 1800C  
Base Oil Viscosity: 220cst@40o C; 18cst @100oC  
Extreme Pressure: Yes  
Water Resistance: Yes  
Relative Service Life: Yes  
Colour: Dark United Blue
