

Scandinavian Design

Vintec products are designed in Denmark and Sweden, with sustainably-sourced premium white oak shelves, fingerprint-proof acid-etched and edge-to-edge glass doors, no protruding handles, minimal touch control panels, signature red bumpers on shelves, and diffused LED lighting throughout.

154 Bottle* Dual Zone cabinet for cellaring or serving red and white wines.
*Based on a Bordeaux shaped bottle

Product Benefits & Features

Vintec Pillar 1: Stable Temperature

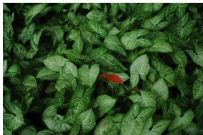

Temperature fluctuations can denature your wines. Most wine cabinets have compressors that run periodically causing temperature fluctuations, but Vintec cabinets have an efficient, variable-speed compressor that runs consistently to maintain the precise temperature you set.

- No alert
- Security lock
- Energy Efficient R600a Gas

Vintec Pillar 2: Humidity Above 50%

Retain moisture in your wine corks with humidity levels above 50%, keeping damaging air out of your wines.

Vintec Pillar 3: UV-Proof Dark Storage Area

Protect wines from light damage with dark interiors and UV-blocking glass.

Vintec Pillar 4: Vibration-Proof Environment

Wine is protected from premature deterioration with vibration-absorbing wooden shelves, rubber shock absorbers and a low vibration, variable-speed compressor.

Vintec Pillar 5: Optimized Airflow

Maintain a fresh, odor-free cabinet with Vintec's efficient air circulation system and a powerful air filter to ensure a constant, slow flow of filtered air throughout the cabinet to limit odors from penetrating your wine and mold from growing and damaging labels and corks.
