

Versatile wine cabinet that can be set as a single zone for cellaring both reds and whites or as multi-temp for serving different styles/variety at perfect drinking temperatures.

Product Details

FEATURES

Stores up to 126 Bordeaux Style Bottles
Maximum loading capacity is 126 bottles of Bordeaux shape and size (750ml).

Extra Wide Shelf Cradles
Perfect for storing a wide variety of bottle shapes and sizes comfortably, while providing the stability needed to keep your bottles safe.

Fully Extendable Shelves on Telescopic Runners
Our fully extendable shelves make your bottles fully visible and easily accessible, while also minimizing any harmful vibrations.

Inverter Compressor
Energy-efficient Variable Speed Compressor: saves energy and emits lower noise and vibrations, while provides great temperature stability and has longer life compared to a single speed compressor.

Wine Display Shelf
Showcase your most cherished wines at the top of your cabinet with the Vintec Display Shelf.

Soft Close
Soft close prevents disturbing wines when closing the door of the wine cabinet. Feature also limits risk of leaving the door open as it will close automatically if any small gap is left behind.

Double-Glaze Door with Anti-UV Glass
The double-glazed door with anti-UV glass ensures protection from UV rays and prevents your wine spoiling due to light damage. It creates the optimal environment for your wine's maturation.

Top-to-Bottom LED Lighting
Perfect visibility of your collection with our energy efficient, top-to-bottom UV-free LED lighting. Located in the door, the light is not blocked by wine bottles, resulting in a smoother appearance with a more uniformed diffusion. Lighting is dimmable to suit home or restaurant environment, with dynamic effects when opening and closing the door and to signal prolonged door openings before audio alert is triggered.

LED Digital Display Panel
Intuitive and minimal touch control panel. Elegant and easy-to-use, by design.

Humidity Recycling System
High humidity level is maintained in the cabinet during cellaring, preventing corks from drying out.

Audio and Visual Alert
When door is left open for more than 5 minutes, a visual notification kicks in, followed by an audio alarm (after additional 2 minutes). The alarm also notifies too high or too low temperatures that put wines at risk.

Security Lock
Child-proof lock your cabinet to avoid unauthorized access to your collection.

Reversible Door (by technician only)
Contact a technician to reverse hinges to change opening side the door of your cabinet (charges apply).

Winter Function for Cold Climates
Maintains the temperature stable even when in cold climates.

Cut-Off Thermostat
Extra safety mechanism that prevents temperature to drop below accepted levels. In the unlikely event of malfunction of the cooling system, this safety mechanism shuts off the compressor and avoids excessively low temperatures.

Dedicated Cellaring Mode
Dedicated mode which sets the temperature of your wine cabinet at 12C the ideal temperature for cellaring all wines (reds, whites and sparkling).

Aluminium Reinforced Shelves
Aluminium trim on the Vintec shelves which improves load-bearing and contributes to the wine cabinets' elegant design.

Door Stop
Provides a natural stop when opening the wine cabinet's door and limits the risk of damaging the glass.

Top Reversible Shelf
Reverse the top shelf to store wines in the upright position. This top shelf is located just under the display shelf and it has a flat side to accommodate standing bottles.

BENEFITS

Vintec Perfect Cradle™ Shelving (fully-extendable, sliding)
Showcase your entire collection with our fully-extendable, wide slat, premium white oak shelving. Unlike most wine cabinets, the Vintec Perfect Cradle Shelving is designed with ideal spacing between shelves to accommodate all 750ml bottle types even your favourite Champagne without scratching the labels.

Made in Europe, Premium Scandinavian Design
Vintec Premium range products are made in Europe and designed in Denmark and Sweden. The signature design incorporates no protruding handles, fingerprint-proof acid-etched and edge-to-edge glass doors, minimal touch control panels, premium white oak shelves, signature red bumpers on shelves, and diffused LED lighting throughout.

True Multi-Temps Climate and Cellaring Modes

Flexibility to store all your varietals at ideal serving temperatures in Multi-Temp mode OR to cellar your wines at a single temperature in Single Zone mode. In Multi-Temp mode, the cabinet generates a gradient of temperatures from top-to-bottom, allowing you to store different wine styles and varietals at their perfect serving temperatures typically graduating from 6C at the bottom to 18C at the top. True Multi-Temp™ offers a wider range of temperatures with greater control, unlike most wine cabinet brands: at the top between 12 to 18 C and at the bottom between 5C to 12C. Offering great versatility, this wine cabinet can also be converted to Single-Zone mode at the touch of a button, creating a single consistent temperature from top-to-bottom, with a range from 8 to 18C. It also offers a dedicated Cellaring Mode, which keeps wines at exactly 12C the ideal temperature for cellaring of all wine styles and varietals.

Energy-Efficient and Quiet Inverter Compressor

The Variable Speed Inverter Compressor is quiet and energy efficient, slowly & gently cooling with greater temperature control. Built with rubber shock absorbers, it minimises vibration transmission, so that your wines are stored in a calm, protected environment where they can mature steadily.

Access to OENO Virtual Cellar Management App

OENO By Vintec is your virtual cellar management tool and personal sommelier, powered by Vivino. It allows wine lovers to keep track of their collection effortlessly, access expert recommendations created by a team of sommeliers, and restock wines. Our partnership with Vivino enables OENO users to use AI label recognition with access to a database of more than 13 million wines, and receive exclusive wine offers to build up your collection and restock your Vintec.

Gold Status at The Vintec Club

"The Vintec Club is a private club for owners of Vintec wine cellars, fully focused on content and experiences around wine. Owning a Vintec cellar is the key to accessing exclusive wine industry benefits and services, and receiving invitations to unique wine dinners and tastings in different locations around the world in the company of celebrated winemakers. This Vintec cellar will entitle you to become Gold status member of the club. Find out more at vintecclub.com."

Fully-Extendable 3-Tier Telescopic Rails

Fully extendable, smooth gliding, telescopic shelves provide full visibility and access to all bottles of your collection. The carefully designed rails help absorb and reduce any vibration to a minimum, keeping your wines safe for the long-term.

Acid-Etched Fingerprint-Proof Glass Door

The acid-etched glass door is fingerprint resistant. Its matte, smooth surface is part of the elegant premium design of the range.

Diffused and Dimmable Top-To-Bottom Crystal White LED Lighting

Our energy-efficient, top-to-bottom UV-free LED lighting provides perfect visibility for all your wines. Located in the door, the light is not blocked by wine bottles, resulting in a smoother appearance with a more uniformed diffusion. Lighting can be personalized and dimmed to suit home or restaurant environment, with dynamic effects when opening and closing the door and to signal prolonged door openings before audio alert is triggered.

Sleek Touch-Sensitive Control Panel

Configure your wine cabinet with ease with the intuitive and minimal touch control panel.

Showcase Your Best Wines

Showcase your best or favourite wines at the top of your cellar with the Vintec Display Shelf. It highlights your bottles by cradling them at an angle providing a clear view of your most cherished wines.

Premium White Oak Shelves

Vintec Premium range shelves are made from White Oak, per the high-quality oak barrels used in winemaking, and are designed to cradle bottles of any shape comfortably, and to provide the sturdiness needed to keep your wines safe during storage.

Peace of Mind with The Vintec 5 Pillars Of Wine Storage

All Vintec Wine Cabinets recreate the ideal wine storage conditions found only in the best natural underground wine cellars by strictly adhering to the "Vintec 5 Pillars of Wine Storage": Stable Temperature, High Humidity, UV-Free / Dark Storage Area, No Vibration, Quality Airflow. *Note: high humidity levels are maintained in the cabinet when set at cellaring temperature (12-14 degrees celsius).
