

## VI-7010 MOBILE DRY SANDING SYSTEM

Mobile dry sanding system with 2 pneumatic tools capacity is every paintshop's most economical option.

This system comes with storage trolley for ease of moving around the bay.

Motor features either a manual vacuum option or tools option whereby it runs automatically with detection of incoming air on the air tool. This increases the lifespan of the motor without the need to change carbon brush too frequent.

Long vacuum hose (5m) for a better coverage within the working bay

System comes with heavy duty mobile trolley powder coated black and top compartment for abrasives storage.

- AUTO MODE TO INCREASE LIFE SPAN OF MOTOR
- MANUAL MODE FOR CONTINUOUS USAGE
- 5 METERS HOSE LENGTH FOR BIGGER COVERAGE
- MULTI FLOW SANDING PAD FOR BETTER EXTRACTION

### **Technical parameter**

Supply: 230V 1 ph  
 Power: 1HP / 1200Watt  
 Working Pressure: 6 bar  
 Max Flow capacity: 3.5m<sup>3</sup>/h  
 Container volume: 40L  
 Noise: 67dBA  
 Filter: dual filter  
 Weight: 12kg

### **Accessories**

- 1 or 2 units Orbital Sander
- 1 or 2 units Vacuum hose
- Mobile trolley
