# FlexiOH<sup>®</sup>

## Light Cured Polymer Immobilizer

FlexiOH is the next generation orthopedic immobilization technology invented, developed, patented and delivered world-wide by OrthoHeal. It is indeed, a one-of-a-kind orthopedic immobilizer that blends precision, rigidity, washability and ventilation without compromising a comfortable post-fracture healing experience.

Recovering from bone-fractures often requires strong physical immobilization for long periods of time using orthopedic immobilizing casts. Such casts can be applied for days, weeks, or even months in specific cases.

The design and material of FlexiOH are strategically engineered to provide superior comfort using a foam, which is bio-compatible (tested as per ISO 10993-10) and provides comfortable cushioning against the hardened polymer. The FlexiOH immobilizer is also designed to have intermittent hollow spaces that can facilitate air-circulation, sweat-evaporation as well as easy washing and regular cleaning of the skin surface

### THE FLEXIOH ADVANTAGE!

FlexiOH allows the patient to avoid all the limitations of conventional orthopedic immobilization casts with a revolutionary innovation of photo-sensitive polymer-based technology.

FlexiOH uses patented technology that is easy, zipper-fitted, stretchable, adjustable, mouldable, washable, strong and breathable immobilization casting technology that is imbued with extraordinary features like:

#### Absolute Washable

Facilitating washing of the fractured part with water and without any damage to the cast or skin.

#### Breathable

Ensuring proper ventilation to the skin that prevents skin infections.

#### Comfortable

a bio-compatible **ISO 10993-10 certified** cushioning under the cast prevent skin irritation of infection.

#### Lightweight

Ensuring that day-to-day activities are done with ease because of lightweight of the cast.

#### Easy application

Zip system makes easy to apply or removal of the immobilizer without the use of any other external cast cutter or spreader

#### Safer

With a proper patient education, it prevents serious side-effects.

#### Latex Free

Materials used in these immobilizers are absolutely latex free, non-allergic and non-sensitizer

#### Recyclable

Made from 100% recyclable material, with zero-discharge and zero-pollution manufacturing process

### RIZYCURE LIGHT DEVICE

### INTRODUCTION

RizyCure Corded is the handheld curing light device which is high intensity blue light, developed by OrthoHeal. RizyCure is visible blue light device, specially designed to cure FlexiOH – Light Cured Polymer Immobilizer. It is plug and play, easy to use and has been made for the doctors' convenience.

### APPLICATION OF RizyCure LED LIGHT SYSTEM

Use of RizyCure Curing Light Device – Corded is to cure FlexiOH immobilizer with high intensity uniform blue light, which gives deep and smooth curing. Just expose the uncured region moving slowly for 8-10 seconds over every corner and region and make sure that it has been cured properly and became rigid. While curing, RizyCure should be very near to the FlexiOH surface (ideally <10 cm away).

## Testimonials

"Excellent choice for active patients, comfortable padding, patient happy to know he can take a shower without any issues, FlexiOH is now part of my practice."

– **DR. JULIO F. RUIZ LOPERENA**  
ORTHOPEDIC SURGEON, HOSPITAL SAN CHARBEL, MÉXICO

FlexiOH makes immobilization easier and more efficient for patient and provider by applying new technologies to existing issues in bracing."

– **GREGORY VILLANO**  
TRI-STATES BIOLOGICS

"FlexiOH has received nothing but positive feedback from physicians that utilize their product. Patients seem to love how much more comfortable FlexiOH is compared to traditional casting. It's exciting to see how far OrthoHeal has come in such a short time."

– **JOHN RICHARDSON**  
HEALTHCARE SOLUTIONS HOLDINGS INC.

## CERTIFICATIONS & REGISTRATIONS

## AWARDS & RECOGNITION

### LONG THUMB SPICA IMMOBILIZER

#### AVAILABLE SIZES

S M L

Absolute washable orthopedic Immobilizer for immobilization of first meta-carpo-phalangeal, carpometacarpal and wrist joint.

#### INTENDED USE

- Non-angulated / Non-displaced / Extra-articular fractures of the base of the first metacarpal (Bennett's fracture & Rolando fracture).
- Non-angulated / Non-displaced / Scaphoid fracture / Lunate fracture / Trapezial fracture.
- Arthritis of the wrist and thumb in both Rheumatoid and Osteoarthritis.
- De Quervain tenosynovitis / Other ligamentous or soft tissue injuries to the thumb.

### RADIAL GUTTER IMMOBILIZER

#### AVAILABLE SIZES

S M L

Absolute washable orthopedic Immobilizer for immobilization at meta-carpals and phalanges of the index and middle finger, leave the thumb, ring and pinky finger freely mobile.

#### INTENDED USE

- Distal Radius Fracture with/without Metacarpal Fracture
- Non-displaced second or third Metacarpal Fractures
- Non-displaced second or third Proximal Phalanx Fracture

### ULNAR GUTTER IMMOBILIZER

#### AVAILABLE SIZES

S M L

Absolute washable orthopedic Immobilizer for immobilization at meta-carpals and phalanges of the pinky and ring fingers.

#### INTENDED USE

- Boxer's Fracture
- Non-displaced fourth or fifth Metacarpal Fractures
- Non-displaced fourth or fifth Proximal Phalanx Fracture
- Non-displaced fourth or fifth Middle Phalanx Fracture

### SHORT ARM IMMOBILIZER

#### AVAILABLE SIZES

2XS XS S M L XL SM SL SXL

Absolute washable orthopedic Immobilizer for immobilization of wrist joint and closed fractures at radius-ulna.

#### INTENDED USE

- Non-displaced / Stable / minimally displaced / Buckle fracture of distal radius fracture
- Carpal bone fracture other than Scaphoid / Trapezium

### FULL ARM IMMOBILIZER

#### AVAILABLE SIZES

2XS XS S M L

Absolute washable orthopedic Immobilizer for immobilization in above elbow, at the elbow knob and at the inside of elbow tip.

#### INTENDED USE

- Proximal of radius and ulna fractures (Monteggia fractures, Galeazzi fractures)
- Distal humerus fractures
- Elbow fractures (Supracondylar/Epicondyle fracture of humerus)
- Mid shaft fractures of radius ulna

### THUMB SPICA IMMOBILIZER

#### AVAILABLE SIZES

S M L

Absolute washable orthopedic Immobilizer for immobilization of thumb.

#### INTENDED USE

- Scaphoid fracture – seen or suspected
- De Quervain tenosynovitis / other ligamentous or soft tissue injuries to the thumb.
- Non-angulated, non-displaced, extra-articular fractures at the base of the first metacarpal

### SHORT LEG IMMOBILIZER

#### AVAILABLE SIZES

2XS XS S M L XL

Absolute washable orthopedic Immobilizer for lower extremity fractures and soft tissue injury.

#### INTENDED USE

- Lower leg fractures around ankle
- Fractures of foot bone
- Severe ankle sprains and strains or fractures.
- Immobilize leg or foot muscles and tendons in place after surgery to allow healing.

### SPLINT / SLAB

#### AVAILABLE SIZES (INCHES)

3 X 9 3 X 12 3 X 15 4 X 12 4 X 15 4 X 18 5 X 12 5 X 15 5 X 18

Absolute washable orthopedic Immobilizer for immobilization in the pre-operative, post-operative and rehabilitation period.

#### INTENDED USE

- Acute swelling of fractured / injured limb / joint
- Pre-operative stabilization
- Post-operative support after surgery
- Ligament sprain / soft tissue injury
- Support during rehabilitation

# PERNATON®

Pernaton gel is a joint massage gel made to the highest quality in Switzerland. It is registered as medical device in Malaysia. Formulated to improve joint mobility and relief joint and muscle pain.

Pernaton gel formulated with the original Perna extract contains glucosamine, chondroitin and hyaluronic acid to support joint and muscle functions.

Can be applied frequently and no dosage limit

A unique formula with high quality ingredients

Contains of Perna extract patented from Switzerland

Suitable for adult and children 6 years old and above

Instant pain relief & improve joint mobility

Can be used together with pain relief tablets

MDR No.: GA1518623-137625 & GA1861023-117642

## PERNATON® Gel

For joint massage

Pernaton Gel, contains Perna extract which include glucosamine, chondroitin and hyaluronic acid, with added physiologically active essential oils.

For joint mobility, lubrication, muscle relaxation and recovery. Cooling sensation

- ✓ Cool immediately
- ✓ Fast absorption, non greasy
- ✓ Instant pain relief, lubrication, reduce swelling and relaxation
- ✓ Local effects. no systematic side effects
- ✓ Use daily to improve joint mobility and relief discomfort
- ✓ Use after sport for cool down and acute joint complaints
- ✓ Non drug. Can be used for long term

## PERNATON® Gel Forte

For muscle massage

Pernaton Gel, Forte contains Perna extract which include glucosamine, chondroitin and hyaluronic acid, with cayenne pepper, camphor oil and other physiological active essential oils. It creates an intensive, lasting and pleasantly warm circulation in the skin.

For connective tissues and muscle massage, for pain relief recovery. Warming sensation

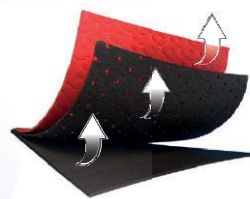

- ✓ Long lasting warmth effects
- ✓ Fast absorption, non greasy
- ✓ Instant pain relief, lubrication, improve mobility and recovery
- ✓ Local effects, no systemic side effects
- ✓ Use daily to improve joint and muscle functions
- ✓ Use before sport for warm up
- ✓ Non drug. Can be used for long term

**AERO-TECH NEOPRENE SUPPORTS**

A range of firm level supports for sports, stability and rehabilitation use.

The **AERO-TECH NEOPRENE** range is made from comfortable and breathable neoprene with terry cloth lining and reinforced edging. These layers move moisture away from the body, keeping you comfortable. The Airflow neoprene construction allows air to circulate and keeps the skin dry. These special features result in allowing the skin to function as normal in spite of the therapeutic warmth being provided by the neoprene layer.

**AIRFLOW NEOPRENE CONSTRUCTION**

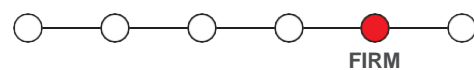

**ONE SIZE FITS ALL**

**KNEE STABILIZER**

The support has **two coiled spring stabilizers** on each side of the knee joint which provides support and stability. The **open patella design** helps keep the patella in place and assists in eliminating painful tendon damage.

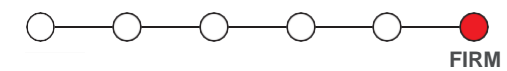

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED050	6003058068507	UP to 50cm

**HINGED KNEE SUPPORT**

The support has **dual axial removable hinges** and an **open patella** design, with additional support around it for increased comfort. The dual side hinges ensure rigid support and stability. The velcro straps are fully adjustable to enable a comfortable fit.

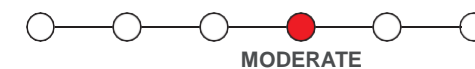

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED025	6003058068255	UP to 50cm

**PATELLA STRAP**

The support is created with a comfortable and **reinforced patella** cup. It is designed to fit securely below the kneecap, applying pressure to the patella tendon. It assists with movement in the kneecap and reduces the force going through the kneecap and tendon.

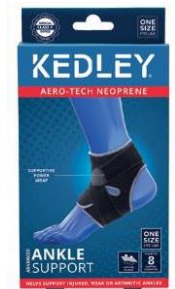

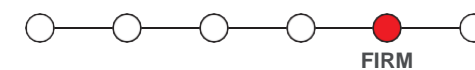

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED030	6003058068309	UP to 35cm

**ADVANCED ANKLE SUPPORT**

The support features a **double velcro strap** fastening system. This ensures a comfortable and firm compression around the entire ankle joint. This brings stability to help eliminate lateral movement of the ankle. The additional elasticated power wrap adds additional support whilst providing adjustable and controlled support.

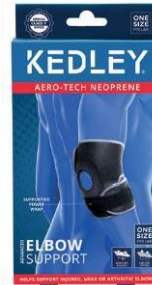

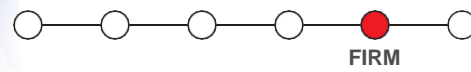

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED049	6003058068491	UP to 35cm

### ADVANCED ELBOW SUPPORT

The support has **dual velcro adjustable straps** to provide a comfortable and secure fit whilst ensuring even compression on the joints and muscles. This maximises stability to help aid in recovery of injuries and prevent further damage. The additional elasticated power strap enhances the pressure and stability on the lower elbow tendons and muscles.

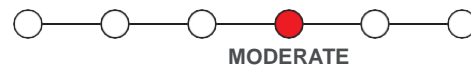

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED051	6003058068514	UP to 35cm

### TENNIS ELBOW SUPPORT

The support helps brace the muscles and tendons, which through overuse, can cause pain in the elbow joint. The pressure created by the **tendon pad** gives targeted support whilst retaining body heat to increase flexibility.

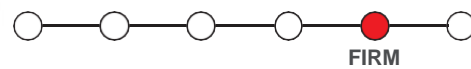

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED028	6003058068286	UP to 40cm

### ADVANCED WRIST SUPPORT

The support incorporates the base of the thumb to provide a secure fit around the wrist joint. The extra supportive **power wrap** can be positioned to maximize stability and adjust the level of compression.

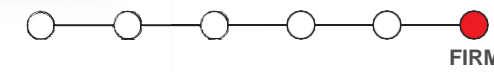

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED048	6003058068484	UP to 24cm

### WRIST SPLINT

The support was specially created to fit both the left and right hand. The **malleable metal splint** allows the brace to take shape to your specific needs, whilst ensuring rigid support.

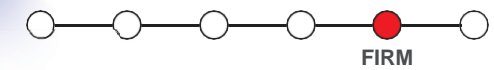

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED027	6003058068279	UP to 24cm

### ADVANCED THUMB BRACE

The support features **two flexible removable metal stays** for extra support and stability. The adjustable thumb loop ensures a secure fit whilst the adjustable, broad wrist band provides additional stability to the base of the thumb and wrist.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED018	6003058068187	UP to 25cm

### ADVANCED BACK SUPPORT

The support is designed to provide maximum support to the middle and lower back. The adjustable velcro belt ensures that the brace fits comfortably. The double, highly elasticated supportive sub-belts creates a secure and firm support.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED029	6003058068293	UP to 115cm

# PRO-LIGHT NEOPRENE SUPPORTS

A range of mid-level supports for everyday, sports and arthritic use.

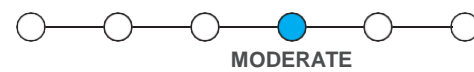

The **PRO-LIGHT NEOPRENE** range is made from neoprene rubber, infused with polyester and polyamide fabric to provide extra strength and flexibility. Heat therapeutic neoprene helps warm stiff, aching muscles and arthritic joints. The fully adjustable designs allow for a custom fit to a range of body types and ages. Reinforced edging increases product durability.

## KNEE SUPPORT

The support has an open patella design with enforced lining for additional support. The **three-way strapping system** allows for a secure fit.

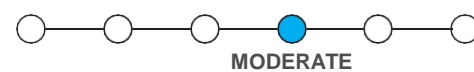

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED019	6003058068194	UP to 60cm

## ANKLE SUPPORT

The support has **two adjustable velcro fastening straps** that can be adjusted to ensure a secure and comfortable fit. The wrap around design provides all around support and stability.

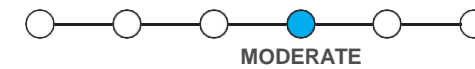

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED020	6003058068200	UP to 35cm

## ELBOW SUPPORT

The support has **two adjustable velcro fastening straps** that can be adjusted to ensure a secure and comfortable fit. The wrap around design provides all around support and stability.

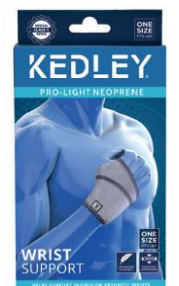

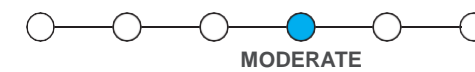

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED021	6003058068217	UP to 35cm

## WRIST SUPPORT

The support incorporates the base of the thumb to provide a secure fit. The **adjustable strap** provides comfortable support and stability. The wrap around velcro strap allows for easy adjustment.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED022	6003058068224	UP to 30cm

## BACK SUPPORT

The support has been designed to help stabilize the lower back and ease muscle and joint stiffness. The **adjustable wrap** around design allows for easy adjustment to ensure a comfortable fit.

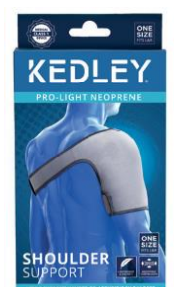

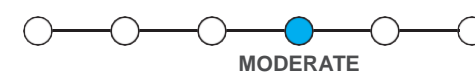

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED024	6003058068248	UP to 115cm

## SHOULDER SUPPORT

The support has **two adjustable points**: they enhance the fit and assist with positioning of the support to maximise the stability of the shoulder.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED023	6003058068231	UP to 46cm

# ACTIVE ELASTICATED SUPPORTS

A range of mild level supports for everyday and sports use. Featuring a 4-way stretch design that provides uniform compression around the effected areas and a breathable knit that ensures the skin stays dry but warm.

The **ACTIVE ELASTICATED** range is made from a high-quality fabric, each product is designed to give maximum support whilst maintaining a comfortable fit.

## KNEE SUPPORT

Everyday effective support for strains, sprains and instability.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Small	KED000	6003058068002	25cm-33cm

## HAND SUPPORT

Everyday effective support for strains, sprains and instability.

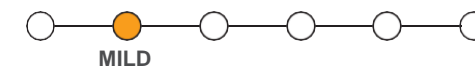

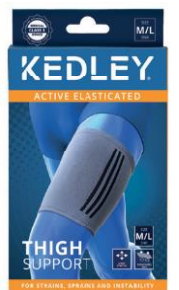

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Small	KED010	6003058068101	13cm-18cm
Medium	KED011	6003058068118	18cm-23cm
Large	KED012	6003058068125	23cm-28cm

## THIGH SUPPORT

Everyday effective support for strains, sprains and instability.

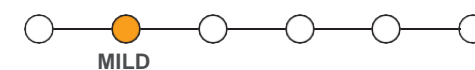

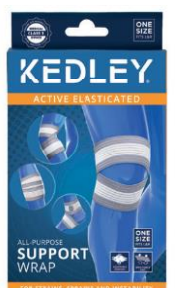

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
S/M	KED015	6003058068156	35cm-50cm
M/L	KED017	6003058068170	50cm-65cm

## ALL PURPOSE SUPPORT WRAP

A highly elasticated wrap/bandage that is breathable, flexible and can be used to support a number of body parts that include, **knee, ankle, elbow, calf and thigh**.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
One Size L&R	KED016	6003058068136	UP to 50cm

# ORTHOPAEDIC SUPPORTS

A specialised supports range to meet individuals specific needs. Each support caters to a specific body part that requires support after injury or surgery.

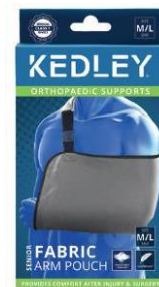

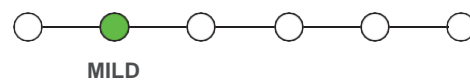

The ORTHOPAEDIC SUPPORT range is made from high quality materials to ensure maximum support and stability during recovery.

## FABRIC ARM POUCH

The support is designed to offer effective support to the wrist, arm, elbow and shoulder. The **adjustable strap** sits comfortably across the back and shoulder offering excellent support and comfort to help promote recovery and healing.

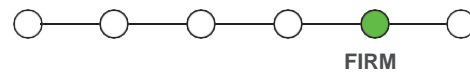

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Junior (S/M)	KED047	6003058068477	15cm-25cm
Senior (M/L)	KED043	6003058068439	25cm-40cm

## LACE-UP ANKLE

The support provides rigid support and stability around the entire ankle joint. The **velcro straps** are fully adjustable to enable a comfortable fit, whilst the lace-up design creates a secure fit for extra support.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Universal	KED026	6003058068262	UP to 35cm

## SOFT NECK COLLAR

The support has been manufactured using soft foam. The design allows for firm and steady neck support. The adjustable Velcro strap enables you to adjust the collar size, whilst ensuring a comfortable fit.

SIZE	PRODUCT CODE	BARCODE
Junior (S/M)	KED045	6003058068453
Senior (M/L)	KED046	6003058068460

SIZE CHART	CIRCUMFERENCE	HEIGHT
Junior (S/M)	28cm-45cm	7cm
Senior (M/L)	36cm-55cm	9cm

# THERAPY PLUS RANGE

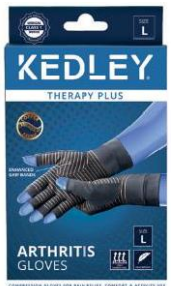

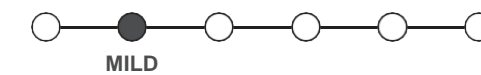

A range of lifestyle supports and products for therapy, rehabilitation and everyday use.

The **THERAPY PLUS** range is made from only the highest quality materials to ensure comfortable support and to promote healing and recovery.

## ARTHRITIS GLOVES

KEDLEY Arthritis gloves are designed to provide compression, help circulation and reduce inflammation around the joints to **relieve arthritic pain** in the knuckles, fingers and wrists. Produced using high quality nylon infused with copper.

SIZE	PRODUCT CODE	BARCODE	SIZE GUIDE
Small	KED066	6003058078414	7cm
