## Emergency Response Spill Kits to handle any type of spill.

Accidents happen, so it's better to be prepared. Brady SPC offers a complete selection of spill kits in a variety of types and sizes to equip you with everything you need to clean up spills when they occur. Quickly and easily clean up oils, solvents, coolants and other fluids. They are ideal for fast response to critical accidents.

### ▶ Liquids Absorbed:

<b>Universal</b>	For oil, water-based and chemical liquids
<b>Oil Only</b>	For oil and petroleum-based liquids
<b>Mixed (Universal &amp; Oil Only)</b>	For indoor/outdoor use. Kits contain both all-purpose universal absorbents and water-repellent oil only absorbents for petroleum and oil-based liquids
<b>Chemical</b>	For aggressive and hazardous liquids
<b>BRIGHTSORB™</b>	For all liquids. Bright safety messaging signals to those in and around the spill containment area to exercise caution.
<b>Re-Form</b>	Universal absorbents that are eco-friendly
<b>TAA Compliant</b>	Complies with the Trade Agreements Act

### Where should Spill Kits be located?

Worker productivity and efficiencies can be improved dramatically by strategically placing spill kits or absorbent storage centers around the facility, closer to areas of need. For both emergency response and routine maintenance and safety, employees should not be wandering away from their workstation to the other side of the plant or tool room to find the absorbent materials they need.

- World Trade Organization government procurement agreement countries
- Free trade agreement countries
