

Facility Marking Tape

BradyID.com/s35

Create a Visual Workplace with Facility & Floor Marking Tapes

Visual Workplace is a lean concept that emphasizes putting critical information at the point of use. Companies that incorporate lean visuals throughout their facility are proven to have higher productivity, reduced waste, and improved safety.

Visuals can be something as simple as a line, shape or color band – whatever employees can understand at a glance. Or visuals can include signs, labels, displays and more.

Floor Marking & Anti-Slip Tapes

Floor Tapes help you identify egress pathways, perimeters and safely guide traffic through your facility. These tapes are available for aisle and floor marking in Anti-Slip, glow-in-the-dark and polyester materials.

Facility Marking & Warning Tape

Facility ID tapes can help you identify areas and processes, as well as keep the workplace organized.

Brady tapes are important for maintenance, emergencies, organization and safety. Facility ID tapes are great for 5S lean management and pipe marking.

Barricades, Caution & Flagging Tapes

Barricade tapes are a great solution to mark off areas of your facility and property. Barricade flags are also available and can also be used to block off or color-code an area. Marking flags can also be used to identify buried cables and lines.

Facility Marking Tape

Lean Manufacturing can lead to a **40% INCREASE** in productivity.

OSHA Regulations: Now Include Aisle Marking

OSHA has recently began requiring or implying the need for marking and color coding.

OSHA - Use of Mechanical Equipment

1910.176(a) Where mechanical handling equipment is used, sufficient safe clearances shall be allowed for aisles, at loading docks, through doorways and wherever turns or passage must be made. Aisles and passageways shall be kept clear and in good repair, with no obstruction across or in aisles that could create a hazard. Permanent aisles and passageways shall be appropriately marked.

OSHA - General Environmental Controls

1910.144 Red shall be the basic color for the identification of fire protection equipment and apparatus, containers of flammable liquids, stop buttons and electrical switches used for emergency stopping of equipment.

1910.144(a)(3) Yellow shall be the basic color for designating caution and marking physical hazards.

OSHA - Means of Egress

1910.35 OSHA will deem an employer demonstrating compliance with the exit route provisions of NFPA 101, Life Safety Code, or the exit route provisions of the IFC 2009, to be in compliance with 190.34, 1910.36 and 1910.37.

OSHA - Letter of Interpretation

1910.22(b) The lines used to delineate aisles may be any color so long as they clearly define the area considered as aisle space. The lines may be composed of dots, square, strip or continuous. The recommended width of aisle markings varies from 2" to 6", therefore any width 2" or more is considered acceptable.

IFC - International Fire Code 2009

1024.1 Approved luminous egress path markings delineating the exit path shall be provided...having occupied floors located more than 75ft above the lowest level of fire department vehicle access.

1024.2.1 A solid and continuous stripe shall be applied to the horizontal leading edge of each step and shall extend the full length of each step.

1024.2.4 Perimeter and floor mounted demarcation lines shall be placed within 4" of the wall and extend to within 2" of the markings on the leading edge of landings. Demarcation lines shall be 1" to 2" wide with interruptions not exceeding 4".

Floor Marking Color Guide

While several regulations dictate that aisles must be clearly marked, there are no current government-mandated or even widely accepted industry standards that recommend what colors to use when marking floors. Use Brady's color guide to help establish floor marking color consistency in your workplace.

	Yellow	Aisle ways, traffic lanes and work cells
	White	Equipment and fixtures not otherwise color coded (workstations, carts, floor stand displays, racks, etc.)
	Blue, Green and/or Black	Materials and components, including raw materials, work-in-progress and finished goods
	Orange	Materials or products held for inspection
	Red	Defects, scrap, rework and red tag areas
	Photo-luminescent	Steps and perimeter demarcation to identify egress routes in a lights-out emergency
	White & Red	Areas to be kept clear for safety/compliance (electrical panels, firefighting and safety equipment such as eyewash stations and first aid stations)
	White & Black	Areas to be kept clear for operational purposes (not related to safety and compliance)
	Yellow & Black	Areas that may expose employees to special physical or health hazards

PaintStripe® Floor Marking

BradyID.com/s35

PaintStripe™ Floor Marking Stencil

- Faster application, exact measurement & precise control
- Two adhesive types to securely mask edges and provide easy removal on concrete and other floor surfaces
- Printed cut-lines and a repeating 12-inch ruler facilitate accurate length measurement and rapid alignment of 90° corners

Ideal applications include:

- Areas where paint is preferred for line-marking, such as areas with aggressive or abrasive traffic conditions, or facilities that are unable to use aisle marking tapes due to wet floors, washdown conditions, floor-cleaning protocols or chemical exposures
- Aisle marking, Lean/5S initiatives, fire safety, high-traffic work areas, shipping and receiving docks, and area designation for finished goods, material waste, work-in-progress, raw materials, storage locations and more

Easily installed by one person.

Clean, precise lines.

Lower adhesion (B-518) ideal for clean, polished floors.

Higher adhesion (B-519) is ideal for dull or worn surfaces.

Catalog #	Description	Size	Qty

148822	Rough Flooring	2" Line	500' roll
148812	Rough Flooring	2" x 8" Dash	100' roll
148818	Rough Flooring	2" x 8" Dash	500' roll
148809	Rough Flooring	3" Line	100' roll
148821	Rough Flooring	3" Line	500' roll
148810	Rough Flooring	4" Line	100' roll
148807	Rough Flooring	4" Line	500' roll

When planning projects, users should test the stencil and paint combination on the intended floor surface.

Try PaintStripe in Your Facility - Contact Brady for a sample!

Paint vs. ToughStripe® Tape

Consider the following attributes of paint and tape to help determine the best fit for your facility.

	Preparation & Execution	Surface	Durability	Environment	Water / Cleaning / Chemical Exposures	Permanency	Multi-Color Lines
 <p>Paint</p>	Extensive planning for surface preparation, ventilation and control of ignition or contamination sources. Downtime to allow paint to bond to floor.	Adheres well across many surface types, including rough or pitted floors	Up to 10 years	Suitable for indoor and outdoor use	Better suited for wash down environments and frequent cleaning	Difficult to remove completely if the markings need to be rearranged	Difficult to paint two-color or striped lines
 <p>Tape</p>	Typically requires less planning and preparation. Tape immediately bonds to floor	Adheres best to smooth surfaces	Up to 3 years	Suitable for indoor, dry environments	Not suitable for frequently wet conditions or liquid chemical exposure	Easier to remove if markings need to be rearranged	Tapes are available in two-color stripes

Facility Marking Tape

ToughStripe® Floor Marking

BradyID.com/s35

B-514 Toughstripe Floor Marking Tape

- ToughStripe products are ideal for marking aisles, passageways and storage locations, and pointing out important safety equipment and egress paths
- Exceeds safety standards for clean, dry non-slip surfaces per ANSI A1264.2-2006 and OSHA 1910.22
- 2mm thickness and service temperature range of 0°F – 129°F
- Resists harsh chemicals

ToughStripe® Tape Adhesion Rates

ToughStripe floor tape is easy to apply and remove, yet, it lasts where other factory and warehouse floor marking tapes simply don't.

Questions about your floor type?

We recommend testing a small area before purchasing. To request a free sample, visit BradyID.com/toughstripe.

* For maximum performance, apply ToughStripe Floor Marking products to flat, non-coated concrete.

ToughStripe® Floor Marking

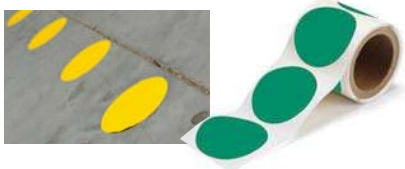

BradyID.com/s35

ToughStripe® Floor Marking Diecut Shapes

- All the durability and high visibility of ToughStripe Floor marking tape, but in diecut shapes
- Easy installation; lay down the continuous tape, and then remove the clear transfer tape. No need to apply markings one by one

BradyGlo™ Egress Marking

The 2015 versions of the International Building Code (IBC), International Fire Code (IFC) and the National Fire Protection Agency's (NFPA) 101 Life Safety Code contain new provisions for the means of egress in most new and pre-existing buildings with five or more stories.

Luminous (glow-in-the-dark) egress path markings are now required for the full width of every stair and handrail, among other markings. Brady offers a complete line of egress marking products that meet the current requirements for the 2015 means of egress regulations.

BradyGlo™ Floor Tapes

- B-324 phosphorescent surface printed polyester
- Designed for safe low level lighting egress pathway marking during power outages and emergency situations
- 10+ hours glow life

Catalog #	Size	Color

BradyLink® Warning Post System

- Portable, non-rusting posts & chain for designating restricted areas or to guide foot and forklift traffic pathways
- Made of colorful polystyrene and polyethylene and are a decorative alternative to metal posts
- Non-conductive so can be safely used in electrically hazardous areas. Hollow base can be filled for a more stable application
- Not intended to support heavy weight

BradyLink Posts

- Includes base, top and c-hook for each post
- Small with Flat Base: 2.5" dia. post; 40" tall; 14" dia. base
- Large with Dome Base: 3" dia. post; 41" tall; 16" dia. base

104809	Wet Floor	24.5"

Bradystake™ Warning Stakes

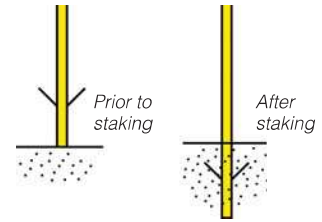

- Bradystake™ Warning Stakes are ideal for outdoor marking applications
- Rugged and flexible stakes bend, not break, if accidentally run over with a vehicle
- Stakes are available in highly visible standard APWA colors and reflective stripes so they are easy to see. Their durable graphics are ideal for harsh environments and because they are flat on both sides you get two-way readability.
- Stakes are six times lighter than conventional signs and posts, so installation is easy and shipping costs are greatly reduced.

Bradystake™ Labels

- B-302 self-sticking polyester suitable for outdoor use
- 1" blank area at bottom accommodates a company label with contact info
- Labels can also be custom ordered with your own legend

Catalog #	Legend	Size
85406	Caution Gas Pipeline	14" x 3"
85551	Warning Natural Gas Pipeline	14" x 3"

Bradystake™ Anchors

- Anchors catch soil around the stake adding extra stability when used in loose or sandy soil
- Resilient, long-lasting spring steel withstands outdoor conditions
- Can be custom ordered to be applied to stakes at the factory allowing for quick field installation

Catalog #	Legend	Qty
97084	Bradystake™ Anchors	1
