

Twin Welding R-Grade Hose 20 Bar

Application

Twin extruded softwall hose used for the transfer of oxygen and acetylene gas for welding and gas cutting applications.

Tube: Black color of SBR blend compound. High impermeability.

Cover: Blue/Green/Red color of EPDM blend compound. Abrasion and weather resistant. Reinforcement: High tensile synthetic yarn.

Temperature: -20°C to +80°C

Nominal inch	I.D (mm)	O.D (mm)	Pressure (bar)		Weight (Kg/m)	Length (m)
			Working	Burst
