

ASHFLEX

UTILITY HOSE 20 BAR

The Utility Hose is a versatile, general-purpose hose designed for the transfer of air, water, and mild non-corrosive fluids in a variety of industrial, commercial, agricultural, and residential applications.

COMMON APPLICATION

The Utility Hose is a versatile, general-purpose hose designed for the transfer of air, water, and mild non-corrosive fluids in a variety of industrial, commercial, agricultural, and residential applications.

TYPICAL APPLICATIONS

- ✓ General water transfer and washdown in factories and workshops
- ✓ Air supply for pneumatic tools in light-duty operations
- ✓ Irrigation and water delivery for landscaping and agriculture
- ✓ Cleaning, filling, and drainage in maintenance work
- ✓ Construction site utility connections

KEY FEATURES

REINFORCEMENT

High tensile synthetic yarn

COVER

Color of EPDM blend compound. Abrasion, oil mist and weather resistant.

INNER TUBE

Black color of SBR blend compound

WORKING PRESSURE

Constant Pressure
20 Bar /
300 PSI

TEMPERATURE RANGE

-35°C to +80°C

SAFETY FACTOR

3 : 1

NOTE

Not recommended for petroleum-based products, chemicals, or high-pressure applications. Always verify compatibility with the intended fluid and working conditions.
