

IG 200S

INVERTER DC MMA

Quick Specs

High Duty Industrial Applications

Suitable for military industry,
Steel structure factory
Petroleum Industry
Shipbuilding,
Other large enterprise
Maintenance

Processes : MMA

Technical Data:

Power supply : 240V 1Ph
Frequency : 50/60 (Hz)
OCV : 60
Rated Input : 8.7 KVA
Rated output voltage : 28 V
Rated Output Current : 200 A

Duty cycle : 60%
Efficiency : 0.85
Power factor : 0.76
Insulation grade : F
Protection grade : IP 23
Net Weight : 8 Kg
Dimensions : 480x210x410 mm

Complete package comes with:

- * 200AMP Electrode Holder
- * 25MM / 2M Cable Holder
- * 25MM / 2M Cable Earth
- * 25-50 Euro Terminal

Features :-

Extra Function : Automatic arc force, hot start & anti-stick for greater control and ease of use.

Weight : Extremely low weight and versatility.

Protections : Equipped with temperature, voltage and current sensor for high protection.

Generator friendly : Designed to work with diesel generators and to avoid failures due to its voltage spikes.

Digital display : Digital current display meter for accurate pre-setting and feedback of welding parameters & output.

TOTAL WELDING SOLUTIONS

Manufactured by :

WELDING INDUSTRIES (M) SDN BHD

Sole Distributor:

ONGLIFE WELD SDN BHD
