

VERTICAL MIXER

直立式混色机

FEATURES

- Material pail is made of stainless steel, well soldered, no pollution, smooth surface is easy for cleaning
- Auto-timer can be set within 0~30 minutes
- The mixers employ with vertical gear motor to ensure low noise and durable service life
- Pail cover and bottom parts are compress formed, precisely matched and durable
- Pail lid is equipped with safeguard switch for ensuring safety absolutely
- Vertical structure with castor wheels, small footprint and easy to move

NOTES

1. Normal mixing time is 3 min
2. The maximum noise value is 70dB (A)
3. The maximum processing capacity is the data obtained by using the continuous running method as the test standard for particles with a specific gravity of 0.65 and a diameter of 2 ~ 3mm

VERTICAL PADDLE

Stainless steel paddle with scientific structure , able to mix raw materials completely; minimize load, save time and electricity; made of premium stainless steel , high strength & easy to clean
