

Dental Guard

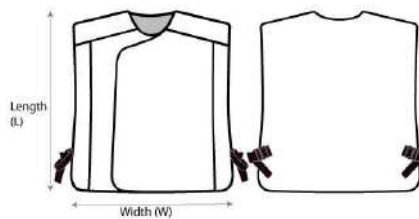

Dental apron provides protection in the case of the vertex occlusal examination, especially in a patient who is, or may be, pregnant. On the other hand, the use of a lead apron may reassure patients that every effort is being made to ensure their safety.

- Fabricate in Malaysia with devotion to premium quality and lightest core materials only
- Core materials complies with IEC 61331-1:2014 and further tested by Agensi Nuklear Malaysia
