# GSM Module Alarm System

**ViVOS®**
*We Prevent Crime · Protect You*

## SMART FEATURE

- Backup unit for landline
- Duress reporting
- Voice Guide Control
- Full Zone open/close SMS report*
- SMS reporting (up to 3 GSM number)
- Personal reporting (up to 3 GSM number)
- Full SMS control with smart access detection
- System trouble reporting on personal reporting/SMS

**GSM MODULE**

## VIVOS® GSM MODULE

- ViVOS® GSM module links to ViVOS alarm panel and then to the user's mobile phone.

- It enables the user to control many of the functions of the system from anywhere and everywhere as long as there is mobile network connection.

- The GSM module also calls or SMS the user to inform about events happening on the system.

- This means the user can monitor and control the alarm system and lights from the mobile phone.

  ViVOS GSM Module can also continually monitor assigned zone for the open and close activity.
