

Water and VibrationLED Work Lights with IP67/ IP68K Protection

Water / Dust proof high brightness LED work light that resists against severe storm and heavily dusty environment

Common Specifications(QL98 series)

- Water / Dust proof LED work light that resists against severe storm and heavily dusty environment
- IP67/ IP68 protection rating, waterproof & dust resistant model that can be used where dusty and flooded area
- Polycarbonate lens allows excellent vibration and impact resistance.
- Long lifetime with a high intensity LED light source allows for easy
- · Excellent durability that is suitable for harsh environment such as an excavator, crane, and off-road vehicle
- · Materials : Housing: AI, Lens : PC
- · Certificates : CE

Test Conditions/ Regulations

Vibration	Resistance	Test

- · Acceleration : 20m/s2
- · Duration : 1 octave/min
- Range of frequency: 10-150Hz
- Amplitude: 10 times maximum 7.5mm, direction: test 10times in 3 directions(X, Y, Z)
- · Acceleration : 20g
- Directions : ±X, ±Y, ±Z
- Shock Resistance Test
- · Numbers: 3 times each directions
- · Time period : 11ms for each direction
- · Waveform : Half sine

Solid Particle Protection Test(IP6X)

- After reducing the pressure inside the test object, spray talcum powder with a nominal diameter of 50um for 2 hours at 40-60meters/hour inside the dust chamber.

Liquid Ingress Protection Test(IPX7)

• Test ingress by putting the object under 1000mm water with 2bar of pressure for 30 mins

Liquid Ingress Protection Test(IPX8)

· Much more strict than IPX7 protection rating and there must be an agreement between manufacturer and customer
